<b>Selection</b>	Manual selection of grapes in vineyard.
<b>Transportation</b>	Boxes of 15 kg

### TASTING NOTE

Visually we can check a middle layer of cherry tone, in addition to clean and bright and without suspended particles.

The nose has medium-high intensity. With aromas of red fruit, cocoa and licorice, on a spicy and smoked background.

In the gustatory phase it has an intense mouth with silky and balanced entry with medium acidity. It is fresh, with good structure and great body. Long and alive in the mouth with high astringency, where there are memories of red fruits, cocoa and licorice
